SUMMARY

I am a Front-End Web Developer/Designer with a fastidious nature, imaginative vision, and infatuation with user journey.
A chameleon of sorts, I possess a unique skill-set that I've acquired from a decades worth of professionalism in the field of art and entertainment alongside 3 years simultaneously leading a micro design production team and performing as front-end web developer for a digital marketing company, giving me a knack for organization and management accompanied with visuals, styling, design, a strong focus on the user experience, and a passion for marketing.

SKILLS

Front End: HTML5, CSS3, JavaScript, JQuery, RESTful APIs, Wordpress
Back End: Node.js, SQL, PostgreSQL, PHP
Frameworks: ReactJS, React Router, Express
Design: Adobe Photoshop, Adobe Indesign, Adobe Acrobat
Other Technologies: Mailchimp, Klayvio, Asana, Page Proof, Git, Github, Chrome Dev Tools, JSON, Enzyme, Jest, Mocha, Chai, Supertest, Knex

WORK EXPERIENCE

DW Green Co. Digital Marketing Agency   **03/2021 to Current**
Web Developer - Project Management - Design & Production
- Created and executed pixel-perfect designs for custom PHP/MySQL websites with custom themes utilizing HTML, CSS, Wordpress, Javascript and JQuery as well as marketing eBlasts to drive sales, ordering, and inventory for over 10 high-end Grocer companies.
- Maintained, produced and updated features, ensuring accessibility, boosting SEO and increasing user interaction within legacy code for several pre-existing websites.
- Led the design/production team of 7 by managing workflow, client communication, producing print ads, eblasts, flyers, mailers, social media posts and meeting press deadlines.

JPMORGAN CHASE BANK   **10/2020 -03/2021**
Data Entry Clerk
- Keyed data into a computer terminal at an alpha-numeric speed of 8,500 KSPH with 99% accuracy.
- Maintained and kept productivity as well as quality metrics while functioning in a high volume production department.

EDUCATION

THINKFUL/Chegg   **03/2019 to 11/2019**
Engineering Flex Program
- Learned industry best practices and practical software development standards with a focus on HTML5, CSS3, JavaScript, jQuery, and React.
- Constructed and deployed mobile-first applications while learning new languages and frameworks by collaborating several hours every week with a senior web developer.
